

## NMCG-TERI CENTRE OF EXCELLENCE ON WATER REUSE

Funded by  
National Mission for Clean Ganga (NMCG)  
Department of Water Resources River Development and Ganga Rejuvenation  
Ministry of Jal Shakti, Govt. of India

### NTCOE LECTURE SERIES

NMCG-TERI Centre of Excellence Water Reuse (NTCoE) <http://nmcgtericoe-wr.in> has been jointly established by the National Mission for Clean Ganga (NMCG) <https://nmcg.nic.in/> Department of Water Resources, River Development & Ganga Rejuvenation, Ministry of Jal Shakti, Govt. of India and The Energy and Resources Institute (TERI), New Delhi <http://teriin.org>. This Centre aims to bring various stakeholders to a common platform to design and foster research and innovation, including the identification of knowledge gaps and the need for new ideas, supporting targeted research, and spurring and nurturing needed innovation for low-cost, effective and integrated wastewater treatment and water reuse technologies, which could bridge the current treatment gaps, boost treatment efficiency, augment capacities and provide safe treated water for reuse.

Aiming to create and disseminate knowledge, the Centre begins the “NTCoE Lecture Series”, which will have **two Thought Leaders** and will be conducted in hybrid mode to encourage maximum participation and would be **jointly organized by International Water Association (IWA) as its Knowledge Partner!** This association is expected to bring international cooperation, great learning and sharing of good practices and enable having a ‘Water Secure’ World!

**Inaugural Session:** The first lecture in this series will be held as per the schedule below with a dedicated theme ‘River City Connect’.

#### Speakers:

**Speaker 1:** Mr. Rajiv Ranjan Mishra, I.A.S. (Retd.), Former Director General, National Mission for Clean Ganga (NMCG), Ministry of Jal Shakti, Govt. of India.

**Speaker 2:** Prof. Kalanithy Vairavamoorthy, Executive Director, International Water Association (IWA), London

**Target Audience:** The Lecture Series is designed for a broad audience, including utility leaders, managers, policy makers, regulators, professionals from industry, research and academia.
